## About Greece

Greece & the Greek Islands are known for 3 things: ancient civilization, amazing landscapes and high developed tourism and MICE infrastructure.

Really beloved by people, Greece is so rich in culture and beauty that it never seems to be completely explored, no matter how many times you visit it. After all, this is one of the reasons that brought it in the list with the top 20 tourist destinations worldwide.

We are proud to state that Greece can host any kind of event! The diversity in venues in Greece is rich, sophisticated and meet high standards, able to host events from 20 up to 8000 guests. Your choices can rank from a floating venue, beach location, hip modern, industrial venue up to historical locations that have recently been offered for event charters.
